

Meeting 2-2/20/25

Started meeting at 2pm ended at 2:50

Discussed how to convert text

Standardization of markup

- decide what we want to be elements and attribute values

- elements to be location

- two attributes one being what thing is at location and the other being distance from whatever point they're measuring from

Brainstorming how to make pdf page by page not by two pages at a time

**Reminder- move stuff from docs folder to sources folder**
